

Great info on Wink and creating tutorials. I'm not sure I followed what the tutorial's file extension will be but I'll find out when I try it. thanks

I had to watch this tutorial 2 times, and I still feel I need more... I don't know if I would be able to create something like this. But you never know till you try, and I am willing to try:) I will download the site and then see what I can do with it. Let you know if I have any questions.

Thanks.

Maria Almeida

I wish I could have moved more quickly through some areas.

Fabulous!

Great tutorial. I especially appreciated the helpful hint about using multiple copies of the same slide to help with the audio.
