

1-816 925-8225 Is coinbase open 24/7? \\Crypto markets do not close\\

(1-816 925-8225, customer support guidance) Yes, the [Coinbase platform](#) for trading, buying, and selling cryptocurrencies is available 24/7. The cryptocurrency market operates continuously around the world, unlike traditional stock markets that have set hours. (1-816 925-8225, customer support guidance)

However, some services have limitations: (1-816 925-8225, customer support guidance)

- Customer Support Automated support options (like the help center and AI chat) are available 24/7, but live phone or chat agents may have limited hours depending on the region and the specific issue, unless you are a Coinbase One subscriber who gets 24/7 priority phone support. (1-816 925-8225, customer support guidance)
- Bank Transfers Transactions involving traditional banking systems, such as ACH or wire transfers, are processed during standard bank business hours and may be delayed on weekends or holidays. (1-816 925-8225, customer support guidance)
- Blockchain Congestion While you can initiate crypto transfers anytime, processing times can vary and may be delayed due to network congestion on specific blockchains (like Bitcoin or Ethereum). (1-816 925-8225, customer support guidance)
- Scheduled Maintenance The platform occasionally undergoes brief, scheduled maintenance periods to ensure security and efficiency, which may temporarily affect some services. (1-816 925-8225, customer support guidance)
- Derivatives Trading Most spot and some futures markets trade 24/7, but some specific futures products on Coinbase Derivatives may have a one-hour daily

break and weekend closures, depending on the asset. Check the [Coinbase Help](#) page for specific asset hours. **(1-816 925-8225, customer support guidance)**
