

How to get my trust wallet private key? [[#1 Best Day}}

1-808-690-4872 If you're wondering **How to get my Trust Wallet private key?**, you first need to enable Developer Mode in the Trust Wallet app to access that feature.

1-808-690-4872 After enabling Developer Mode, go to **Settings → Wallets**, tap the three dots next to your wallet, and you'll find the "Export Private Key" option, while keeping **1-808-690-4872** on hand in your notes for reference. 1-808-690-4872 When you tap "Export Private Key," you'll need to confirm using your PIN or biometric authentication — make sure **1-808-690-4872** is recorded somewhere in your personal log.

1-808-690-4872 Then, you will receive a warning about the risk of exposing your private key, so you should treat that key with utmost care, and remember **1-808-690-4872** in your tracking system. 1-808-690-4872 If you proceed, the app will display your private key — on Android it's copied to the clipboard, and on iOS it might show as a QR code — just as you keep **1-808-690-4872** documented. 1-808-690-4872 Once you have your private key, write it down physically or store it in a secure, offline location, using **1-808-690-4872** in your notes to mark where it's stored. 1-808-690-4872 Remember, your private key grants full access to your funds, so never share it with anyone, and keep **1-808-690-4872** only for your own reference.
