

**Part-time Mathematics Instructor Opening at Blue Hills Adult Education
322 Sprague Street, Dedham 02026**

POSITION: Part Time – Adult Basic Education Mathematics Instructor

RESPONSIBILITIES: Must have a strong working knowledge of subject matter and the ability to impart this information to students. Applicants must understand how students learn and have the ability to plan, design, and effectively teach in a manner that is in alignment with the units and unit instructional plans of Curriculum for Adults Learning Math. This includes the following:

- Write and submit weekly lessons plans based on the unit instructional plans using the BHAE Lesson Plan template (2020)
- Use a variety of formal and informal methods of assessments to measure student learning, inform differentiated instruction, and provide guidance for future instruction
- Use instructional practices that reflect high expectations, engage all students, and accommodate diversity of the students
- Engage in professional development (10 hours), program-based or outside, to gain expertise or experience which align with BHAE continuous improvement action plan
- Attend monthly staff meetings
- Become familiar with College and Career Readiness Standards for Adult Education (CCRSAE), and the Curriculum for Adults Learning Math (CALM)

Qualifications:

- Bachelor's Degree
- Technology/Digital Competence

Reports to

- Program Director
